- The borrower's inability to manage debt
- Extenuating circumstances

Foreclosure and Deed-in-Lieu of Foreclosure (TOTAL)

The mortgagee **must** manually downgrade to a REFER if the borrower had a foreclosure or deed-in-lieu of foreclosure in which title transferred from the borrower within three years of case number assignment.

Foreclosure and Deed-in-Lieu (DIL) of Foreclosure (Manual)

Borrower is not eligible if borrower had a foreclosure or a DIL of foreclosure in the three-year period prior to the date of case number assignment. This three-year period begins on the date of the DIL or the date that the borrower transferred ownership of the property to the foreclosing entity/designee.

- Exception: An exception to the three-year requirement is allowed if the foreclosure was the result of documented extenuating circumstances that were beyond the control of the borrower, such as a serious illness or death of a wage earner, and the borrower has re-established good credit since the foreclosure
 - Divorce is not considered an extenuating circumstance. An exception may, however, be granted where a borrower's mortgage was current at the time of the borrower's divorce, the ex-spouse received the property, and the mortgage was later foreclosed
 - The inability to sell the property due to a job transfer or relocation to another area does not qualify as an extenuating circumstance
 - Mortgagee **must** obtain an explanation of the circumstance and document that the circumstance was beyond the borrower's control

Pre-Foreclosure Sale (Short Sales) (TOTAL)

The mortgagee **must** document the passage of three years since the date of the short sale. If the short sale occurred within three years of the case number assignment date, the mortgage **must** be downgraded to a REFER and manually underwritten. This three-year period begins on date of transfer of title by short sale.

Pre-Foreclosure Sales (Short Sales) (Manual)

Borrower is not eligible if they relinquished a property through a short sale within three years from the date of case number assignment. This three-year period begins on the date of transfer of title by Short Sale.

- Exception for Borrower Current at the Time of Short Sale: An exception to the three-year requirement is

FHA Standard Refinance (Cash Out)

allowed if, from the date of case number assignment for the new mortgage:

- All mortgage payments on the prior mortgage were made within the month due for the 12-month period preceding the short sale; and
- Installment debt payments for the same time period were also made within the month due
- Exception for Extenuating Circumstances: An exception to the three-year requirements is allowed if the short sale was the result of documented extenuating circumstances that were beyond the control of the borrower, such as a serious illness or death of a wage earner, and the borrower has re-established good credit since the short sale
 - Divorce is not considered an extenuating circumstance. An exception may, however, be granted where a borrower's mortgage was current at the time of the borrower's divorce, the ex-spouse received the property, and the mortgage was later foreclosed
 - The inability to sell the property due to a job transfer or relocation to another area does not qualify as an extenuating circumstance
 - Mortgagee **must** obtain an explanation of the circumstance and document that the circumstance was beyond the borrower's control

Tax Liens (TOTAL and Manual)

Tax liens may remain unpaid if the borrower has entered into a valid repayment agreement with the lien holder to make regular payments on the debt and the borrower has made timely payments for at least three months of scheduled payments. The borrower cannot prepay scheduled payments in order to meet the required minimum of three months of payments. The payment amount in the agreement **must** be included in the borrower's DTI. The lien holder **must** subordinate the tax lien to the FHA-insured mortgage.

Credit Counseling/Payment Plan (TOTAL)

Participating in a consumer credit counseling program does not require a downgrade to a manual underwrite. No explanation or other documentation is needed.

Credit Counseling/Payment Plan (Manual)

Participating in a consumer credit counseling program does not disqualify a borrower, provided the mortgagee documents that:

- One year of the pay-out period has elapsed under the plan;
- The borrower's payment performance has been satisfactory and all required payments have been made on time; and
- The borrower has received written permission from the counseling agency to enter in to the mortgage transaction

Business Debt in Borrower's Name (TOTAL and Manual)

When business debt is reported on the borrower's personal credit report, the debt **must** be included in the DTI calculation, unless the mortgagee can document that the debt is being paid by the borrower's business, and the debt was considered in the cash flow analysis of the borrower's business. The debt is considered in the cash flow analysis where the borrower's business tax returns reflect a business expense related to the obligation, equal to or greater than the amount of payments documented as paid out of company funds. Where the borrower's business tax returns show an interest expense related to the obligation, only the interest portion of the debt is considered in the cash flow analysis.

- Mortgagee **must** document that the debt is paid out of company funds (e.g., 12 months cancelled checks) and that the debt was considered in the cash flow analysis of the borrower's business.

30-Day Accounts (TOTAL and Manual)

30-day accounts refer to a credit arrangement that requires the borrower to pay off the outstanding balance on the account every month. The mortgagee **must** verify the borrower paid the outstanding balance in full on every 30-Day Account each month for the past 12 months. 30-Day Accounts that are paid monthly are not included in the borrower's DTI. If the credit report reflects any late payments in the last 12 months, the mortgagee **must** utilize 5 percent of the outstanding balance as the borrower's monthly debt to be included in the DTI.

- Use the credit report to document the balance and document that funds are available to pay off the balance in excess of the funds and reserves required to close the mortgage.

Payment History on Housing Obligations (Manual)

The Mortgagee **must** determine the Borrower's Housing Obligation payment history through:

- the credit report;
- verification of rent received directly from the landlord (for landlords with no Identity of Interest with the Borrower);
- verification of Mortgage received directly from the mortgage servicer; or
- a review of canceled checks that cover the most recent 12-month period.

The Mortgagee **must** verify and document the previous 12 months' housing history:

- For Borrowers who indicate they are living rent-free, the Mortgagee **must** obtain verification from the property owner where they are residing that the Borrower has been living rent-free and the amount of time the Borrower has been living rent free.
- A Mortgage that has been modified **must** utilize the payment history in accordance with the modification agreement for the time period of modification in determining late housing payments.

- the Borrower has the right to return to work; and
- the Borrower qualifies for the Mortgage taking into account any reduction of income due to the circumstance.

For Borrowers returning to work after the first Mortgage Payment due date, the Mortgagee may use the Borrower's current income plus available surplus liquid asset Reserves, above and beyond any required Reserves, as an income supplement up to the amount of the Borrower's pre-leave income. The amount of the monthly income supplement is the total amount of surplus Reserves divided by the number of months between the first payment due date and the Borrower's intended date of return to work.

Where the Borrower does not have a history of Rental Income for the Property since previous tax filing, including Property being vacated by the Borrower, the Mortgagee **must** obtain an appraisal evidencing market rent and that the Borrower has at least 25 percent equity in the Property. The appraisal is not required to be completed by an FHA Roster Appraiser.

- **Two- to Four-Units**
The Mortgagee **must** verify and document the proposed Rental Income by obtaining an appraisal showing fair market rent (use [Fannie Mae Form 1025/Freddie Mac Form 72](#), *Small Residential Income Property Appraisal Report*) and, if available, the prospective leases.
- **One Unit**
The Mortgagee **must** verify and document the proposed Rental Income by obtaining a [Fannie Mae Form 1004/Freddie Mac Form 70](#), *Uniform Residential Appraisal Report*, [Fannie Mae Form 1007/Freddie Mac Form 1000](#), *Single Family Comparable Rent Schedule*, and [Fannie Mae Form 216/Freddie Mac Form 998](#), *Operating Income Statement*, showing fair market rent and, if available, the prospective lease.

Calculation of Effective Net Rental Income (limited or no history)

To calculate the effective net Rental Income from other real estate holdings where the Borrower does not have a history of Rental Income since the previous tax filing, the Mortgagee **must** deduct the Principal, Interest, Taxes, and Insurance (PITI) from the lesser of:

- the monthly operating income reported on Freddie Mac Form 998; or
 - 75 percent of the lesser of fair market rent reported by the Appraiser; or
 - the rent reflected in the lease or other rental agreement.

History of Rental Income

The Mortgagee **must** obtain the Borrower's last two years' tax returns with Schedule E.

Calculation of Effective Net Rental Income (with history of net rental income)

- The Mortgagee **must** calculate the net Rental Income by averaging the amount shown on the Schedule E provided the Borrower continues to own all Properties included on the Schedule E.
- Depreciation shown on Schedule E may be added back to the net income or loss.
- If the Property has been owned for less than two years, the Mortgagee **must** annualize the Rental Income for the length of time the Property has been owned.
- For Properties with less than two years of Rental Income history, the Mortgagee **must** document the date of acquisition by providing the deed, Settlement Statement or similar legal document.
- Positive net Rental Income **must** be added to the Borrower's Effective Income. Negative net Rental Income **must** be included as a debt/liability.

Retirement Income (TOTAL)

Social Security Income (TOTAL)

Social Security Income or Supplemental Security Income (SSI) refers to income received from the SSA other than disability income.

- **Required Documentation** - The Mortgagee **must** verify and document the Borrower's receipt of income from the SSA and that it is likely to continue for at least a three year period from the date of case number assignment. For SSI, the Mortgagee **must** obtain any one of the following documents:
 - federal tax returns;
 - the most recent bank statement evidencing receipt of income from the SSA;
 - a Proof of Income Letter, also known as a "Budget Letter" or "Benefits Letter" that evidences income from the SSA; or

FHA Standard Refinance (Cash Out)

- a copy of the Borrower's [form SSA-1099/1042S](#), *Social Security Benefit Statement*.

In addition to verification of income, the Mortgagee **must** document the continuance of this income by obtaining from the Borrower

- (1) a copy of the last Notice of Award letter which states the SSA's determination on the Borrower's eligibility for SSA income or
- (2) an equivalent document that establishes award benefits to the Borrower (equivalent document).
- (3) If any income from the SSA is due to expire within three years from the date of case number assignment, that income may not be used for qualifying.

If the Notice of Award or equivalent document does not have a defined expiration date, the Mortgagee **must** consider the income effective and reasonably likely to continue. The Mortgagee may not request additional documentation from the Borrower to demonstrate continuance of Social Security Administration income.

If the Notice of Award letter or equivalent document specifies a future start date for receipt of income, this income may only be considered effective on the specified start date.

The Mortgagee **must** use the current amount of Social Security Income received to calculate Effective Income.

Pension (TOTAL and Manual)

Pension refers to income received from the Borrower's former employer(s).

- **Required Documentation** - The Mortgagee **must** verify and document the Borrower's receipt of periodic payments from the Borrower's Pension and that the payments are likely to continue for at least three years. The Mortgagee **must** obtain any one of the following documents:
 - federal tax returns;
 - the most recent bank statement evidencing receipt of income from the former employer; or
 - a copy of the Borrower's Pension/retirement letter from the former employer.
- The Mortgagee **must** use the current amount of Pension income received to calculate Effective Income.

Individual Retirement Account and 401(k) (TOTAL and Manual)

Individual Retirement Account (IRA)/401(k) Income refers to income received from an IRA/401(k).

- **Required Documentation** - The Mortgagee **must** verify and document the Borrower's receipt of recurring IRA/401(k) distribution Income and that it is reasonably likely to continue for three years. The Mortgagee **must** obtain the most recent IRA/401(k) statement and any one of the following documents:
 - federal tax returns; or
 - the most recent bank statement evidencing receipt of income.
- For Borrowers with IRA/401(k) Income that has been and will be consistently received, the Mortgagee **must** use the current amount of IRA Income received to calculate Effective Income. For Borrowers with fluctuating IRA/401(k) Income, the Mortgagee **must** use the average of the IRA/401(k) Income received over the previous two years to calculate Effective Income. If IRA/401(k) Income has been received for less than two years, the Mortgagee **must** use the average over the time of receipt.

Capital Gains and Losses (TOTAL and Manual)

Capital gains or losses **must** be considered when determining Effective Income, when the individual has a constant turnover of assets resulting in gains or losses.

- **Required Documentation** - Three years' tax returns are required to evaluate an earnings trend. If the trend:
 - results in a gain, it may be added as Effective Income; or
 - consistently shows a loss, it **must** be deducted from the total income.

Commission Income (TOTAL and Manual)

The Mortgagee may use Commission Income as Effective Income if the Borrower earned the income for at least one year in the same or similar line of work and it is reasonably likely to continue.

- **Required Documentation**
 - For Commission Income less than or equal to 25 percent of the Borrower's total earnings, the Mortgagee **must** use traditional or alternative employment documentation.
 - For Commission Income greater than 25 percent of the Borrower's total earnings, the Mortgagee **must** obtain signed tax returns, including all applicable schedules, for the last two years. In lieu of signed tax returns from the Borrower, the Mortgagee may obtain a signed [IRS Form 4506](#), [Request for Copy of Tax Return](#), [IRS Form 4506-T](#), [Request for Transcript of Tax Return](#), or [IRS Form 8821](#), [Tax Information Authorization](#), and tax transcripts directly from the IRS.
- The Mortgagee **must** calculate Effective Income for commission by using the lesser of
 - the average net Commission Income earned over the previous two years, or the length of time Commission Income has been earned if less than two years; or
 - the average net Commission Income earned over the previous one year.

The Mortgagee **must** calculate net Commission Income by subtracting the unreimbursed business expenses from the gross Commission Income.

The Mortgagee **must** reduce the Effective Income by the amount of any unreimbursed employee business

Approvable Ratio Requirements (Manual Underwriting)

The **maximum** Total Mortgage Payment to Effective Income Ratio (PTI) and Total Fixed Payments to Effective Income Ratio, or DTI, applicable to manually underwritten Mortgages are summarized in the matrix below.

The qualifying ratios for Borrowers with no credit score are computed using income only from Borrowers occupying the Property and obligated on the Mortgage. Non-occupant co-Borrower income may not be included.

Manual Underwriting Matrix		
Lowest Minimum Decision Credit Score	Maximum Qualifying Ratios (%)	Acceptable Compensating Factors (see info below table for documentation)
500-579 (not allowed by Impac) or No Credit Score	31/43	Not applicable. Borrowers with minimum decision credit scores below 580, or with no credit score may not exceed 31/43 ratios.
580 and above	31/43	No compensating factors required
580 and above	37/47	One of the following: <ul style="list-style-type: none"> • verified and documented cash Reserves; • minimal increase in housing payment; or • residual income.
580 and above	40/40	No discretionary debt.
580 and above	40/50	Two of the following: <ul style="list-style-type: none"> • verified and documented cash Reserves; • minimal increase in housing payment; • significant additional income not reflected in Effective Income; and/or • residual income.

Documenting Acceptable Compensating Factors (reference the above table) (Manual)

Verified and Documented Cash Reserves - Verified and documented cash Reserves may be cited as a compensating factor subject to the following requirements.

- Reserves are equal to or exceed **three total monthly Mortgage Payments (one and two units)**; or
- Reserves are equal to or exceed **six total monthly Mortgage Payments (three and four units)**.

Reserves are calculated as the Borrower's liquid assets as described in FHA guidelines less:

- the total funds required to close the Mortgage. Reserves do not include:
 - gifts;
 - borrowed funds from any source; and
 - cash received at closing in a cash-out refinance transaction or incidental cash received at closing in the mortgage transaction.

Minimal Increase in Housing Payment - A minimal increase in housing payment may be cited as a compensating factor subject to the following requirements:

- the new total monthly Mortgage Payment does not exceed the current total monthly housing payment by more than \$100 or 5 percent, whichever is less; and
- there is a documented 12 month housing payment history with no more than one 30 Day late payment. In cash-out transactions all payments on the Mortgage being refinanced **must** have been made within the month due for the previous 12 months.
- If the Borrower has no current housing payment Mortgagees may not cite this compensating factor.

The Current Total Monthly Housing Payment refers to the Borrower's current total Mortgage Payment or current total monthly rent obligation.

No Discretionary Debt - No discretionary debt may be cited as a compensating factor subject to the following requirements:

- the Borrower's housing payment is the only open account with an outstanding balance that is not paid off monthly;
- the credit report shows established credit lines in the Borrower's name open for at least six months; and
- the Borrower can document that these accounts have been paid off in full monthly for at least the past six months.

Borrowers who have no established credit other than their housing payment, no other credit lines in their own name open for at least six months, or who cannot document that all other accounts are paid off in full monthly for at least the past six months, **do not qualify under this criterion**. Credit lines not in the Borrower's name but for which they are an authorized user **do not qualify under this criterion**.

FHA Standard Refinance (Cash Out)

Significant Additional Income Not Reflected in Effective Income - Additional income from Overtime, Bonuses, Part-Time or Seasonal Employment that is not reflected in Effective Income can be cited as a compensating factor subject to the following requirements:

- the Mortgagee **must** verify and document that the Borrower has received this income for at least one year, and it will likely continue; and
- the income, if it were included in gross Effective Income, is sufficient to reduce the qualifying ratios to not more than 37/47.

Income from non-borrowing spouses or other parties not obligated for the Mortgage may not be counted under this criterion. This compensating factor may be cited **only in conjunction with another compensating factor** when qualifying ratios exceed 37/47 but are not more than 40/50.

Residual Income - Residual income may be cited as a compensating factor provided it can be documented and it is at least equal to the applicable amounts for household size and geographic region found on the Table of Residual Incomes By Region found in the Department of Veterans Affairs (VA) [Lenders Handbook - VA Pamphlet 26-7](#), Chapter 4.9 b and e.

Calculating Residual Income - Residual income is calculated as total Effective Income of all occupying Borrowers less:

- state income taxes;
- federal income taxes;
- municipal or other income taxes;
- retirement or Social Security;
- proposed total Mortgage Payment;
- estimated maintenance and utilities;
- job related expenses (e.g., child care); and
- the amount of the Gross Up of any Non-Taxable Income.

If available, Mortgagees **must** use federal and state tax returns from the most recent tax year to document state and local taxes, retirement, Social Security and Medicare. If tax returns are not available, Mortgagees may rely upon current pay stubs.

For estimated maintenance and utilities, Mortgagees **must** multiply the Gross Living Area of the Property by the maintenance and utility factor found in the Lenders Handbook - VA Pamphlet 26-7.

Using Residual Income as a Compensating Factor - To use residual income as a compensating factor, the Mortgagee **must count all members of the household of the occupying Borrower without regard to the nature of their relationship and without regard to whether they are joining on title or the Note to determine "family size."**

- **Exception** - The Mortgagee may omit any individuals from "family size" who are fully supported from a source of verified income which is not included in Effective Income in the mortgage analysis. These individuals **must** voluntarily provide sufficient documentation to verify their income to qualify for this exception. From the table provided in [Lenders Handbook - VA Pamphlet 26-7](#), select the applicable mortgage amount, region and household size. If residual income equals or exceeds the corresponding amount on the table, it may be cited as a compensating factor.

Compensating factors cited to support the underwriting decision **must** be recorded in the *Underwriter Comments* section of Form HUD-92900-LT, *FHA Loan Underwriting and Transmittal Summary*.

Documentation supporting the compensating factors cited **must** be included in the endorsement case binder including, if applicable, a worksheet attached to Form HUD-92900-LT reflecting the calculation of residual income.
