

### Guideline Overview

Loans meeting the parameters outlined in these guidelines are consistent with the Dodd Frank Wall Street Reform Act Ability to Repay. Documentation standards are designed so that loans are made to borrowers who have demonstrated the ability and have the capacity to repay the debt thus satisfying Ability-to-Repay standards. In regards to any underwriting criteria not specifically addressed in this document, Fannie Mae standards apply.

### Program Qualifications

This program offers fixed rate and adjustable rate mortgage options for borrowers with jumbo loans and conforming loans that fall just outside the parameters for Qualified Mortgages. Full documentation of income and assets is required. Loans in this program must not be able to qualify for a Fannie Mae DU Approve/Eligible recommendation.

**NOTE:** Loans that are eligible for sale to a government-sponsored enterprise (GSE) – the Federal National Mortgage Association (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac) – are ineligible for any NQM Series programs. All NQM Agency Plus loans must be run through Fannie Mae’s Desktop Underwriter (DU). A copy of the DU Findings must be included in the file. See Underwriting for additional information.

## NQM Agency Plus Program – Underwriting Guidelines

<b>Age of Documentation</b>	<p>Credit documents (inclusive of credit reports, employment, income, and asset documentation) and title reports must be no more than 120 days old on the note date. When consecutive credit documents are in the loan file, the most recent document is used to determine whether it meets the age requirement. For example, when two consecutive monthly bank statements are used to verify a depository asset, the date of the most recent statement must be no more than 120 days old on the note date. If the credit documents are older than allowed, they must be updated.</p> <p>Appraisal Reports and Appraisal Updates must be dated within 120 days from note date. If older than 120 days from note date, but within the preceding 12 months from note date, the Appraisal Report may be used with an acceptable recertification of value completed on <a href="#">Appraisal Update and/or Completion Report (Form 1004D)</a>. An Appraisal Update and/or Completion Report must inspect the exterior of the property and review current market data to determine whether the property has declined in value since the date of the original appraisal.</p> <ul style="list-style-type: none"> <li>• If the appraiser indicates on the Form 1004D that the property value has declined, then the lender must obtain a new appraisal for the property.</li> <li>• If the appraiser indicates on the Form 1004D that the property value has <i>not</i> declined, then the lender may proceed with the loan in process without requiring any additional fieldwork.</li> </ul> <p><b>Note:</b> The appraisal update must occur within the 120 days that precede the date of the note and mortgage</p> <p>The original appraiser should complete the appraisal update; however, lenders may use substitute appraisers. When updates are completed by substitute appraisers, the substitute appraiser must review the original appraisal and express an opinion about whether the original appraiser's opinion of market value was reasonable on the date of the original appraisal report. The lender must note in the file why the original appraiser was not used.</p>
