FEMA Major Disaster Declaration  
for Missouri – 4451**

FEMA has issued a presidential disaster declaration for Missouri - 4451 designating an additional county as eligible for individual assistance.

Re-inspections will be required for properties located in zip codes and counties that are eligible for individual assistance for appraisals issued prior to the incident start date of April 29, 2019 and continuing. All property inspection products must affirmatively indicate there is no adverse impact to value, condition, or marketability as a result of the disaster, and must be dated after the published “incident end date”. Acceptable re-inspection documents include the appropriate DAIR, 1004D or appraisal product and must be ordered after the “incident end date.”

- Exterior Inspections: Required for all inspections, including, but not limited to, earthquake, fire, landslide, tornado, flood, and hurricane.
- Interior Inspections\*: Required for all pre-closing FHA Full Doc Loans, flood, hurricane, and water related damage inspections regardless of “Exterior Only DAIR” designation below.

The chart below lists the required re-inspection type by loan product.

FEMA Major Disaster Declaration  
for Missouri – 4451**

**Incident Periods**

Loan files containing appraisal reports with an effective date prior to the “incident start date” are ineligible for funding without an accompanying property inspection product dated after the “incident end date”.

Loan files containing appraisal reports with an effective date on or after the “incident start date” are ineligible for funding without an accompanying property inspection product dated after the “incident end date”.

Appraisal reports with an effective date after the published “incident end date” require **no action** and may fund provided there is no indication from the appraiser that there is an adverse impact on the property’s value, condition, or marketability as a result of the disaster.

For originations on or before the “incident end date,” Appraisal Waivers returned on the AUS Cert (e.g. PIW or ACE) may be used provided the Appraisal Waiver language is present on the final AUS cert, and the accompanying property inspection product dated after the “incident end date” is obtained.

- For originations after the “incident end date,” an Appraisal Waiver may be used provided it meets the same requirements notwithstanding the requirement to obtain the accompanying property inspection product (i.e. an accompanying property inspection is not required).
